## Personal Profile

I am a highly motivated and skilled professional with a strong background in web development and IT management. With a passion for programming and a career change in 2019, I have spent the past five years excelling in roles ranging from Junior software Developer to Deputy Lead at Papirfly. Proficient in TypeScript and well-versed in agile methodologies, OOP, and SOLID principles, I have consistently delivered high-quality web app solutions while leading a team of developers.

With a commitment to continuous learning demonstrated through self-funded training programs and academic pursuits, I am poised to make significant contributions to a forward-thinking organisation in the web development arena. My dedication to professional growth, coupled with my proven track record of success, makes me an invaluable asset in driving innovation and achieving business objectives.

## Skills
